

I did get an update from the Contractor and their plan is to prep the area in front of your building tomorrow (Tuesday) with a concrete pour for both the east and west side on Wednesday which will effectively finish all the sidewalk on the 300 block. You would need to have your forms removed no later than first thing tomorrow morning to allow for that work.

Good Afternoon Eric,

Please let me know the CTR's plans for pouring in front of 303 N. Washington Ave. Last week, I understood they were aiming to pour by Friday, but during our discussion today, I gathered it might be next week.

Additionally, do we have the clean-out covers for the two 4" pipes?

Thank you!

Larry
