Good afternoon everyone.

As the project continues to gain momentum we have run into a safety issue today which will result in the following changes to the road closures. Starting tomorrow morning and lasting throughout the life of the project the following block\road closures will be in effect:

The 300 block of N Washington from Rusk to Burleson will be completely closed starting at 6:00am each morning and being reopened at or before 5:00 pm each day, Monday through Friday. It is the contractors intention to open the street up as soon as possible each day but may need to wait until 5:00pm given the work they are doing. The sidewalks will remain open during these periods.

This change is necessitated due to the fact that both the Chief of Police as well as myself witnessed on numerous occasions vehicles travelling the wrong way in the northbound lanes. Not only is this dangerous to the drivers but also the contractors employees would not be expecting to see a vehicle coming in that direction. As all of you will appreciate we want to have this work zone be as safe as possible for all individuals that have a need to be in the downtown area.

As always if there are any questions do not hesitate to contact me.
